Are you looking after someone?

Caring for someone can happen very suddenly, sometimes overnight or you may find yourself doing more and more over many months and years. Although rewarding, looking after someone can affect your physical and emotional wellbeing and impact on you financially and socially.

This booklet has been produced to help you identify if you are a carer, to signpost you to support that is available locally and to help you decide if you would benefit from an Adult Carer Support Plan (ACSP), which replaces a Carers' Assessment.

How can we assist you in your caring role?

An Adult Carer Support Plan is a way to find out if you are receiving the support that is needed for you to continue to provide care.

It may, or may not, lead to additional services. But it will ensure that you have all of the information that you need, and will provide access to other supports, for example a benefits check to ensure you are receiving all you are entitled to.

It will take into consideration your wishes for social opportunities, employment and further education.

Most of all it will make sure that your voice is heard and your caring role is recognised and valued.

If you are a young carer, please contact Aberdeenshire Carer Support Service to find out about a Young Carer Statement (YCS) or to request one. Details are available on the Aberdeenshire Council website at

www.aberdeenshire.gov.uk under 'Support for young carers'.

We have put together a checklist of things you may want to consider to decide if you are a carer and to prepare you for a support plan, if you choose to have one.

Do you need an Adult Carer Support Plan?

A carer is defined as a person who provides, or intends to provide, unpaid support to a family member, partner, friend or neighbour who needs assistance because of their age, physical or mental illness or disability.

The Carers (Scotland) Act 2016, came into effect on 1st April 2018 and provides a number of new rights for carers to be supported in their caring role. This includes the right to an Adult Carer Support Plan, regardless of the number of hours, type of caring or regularity of their caring role (Young Carers will be offered a YCS in place of an ACSP).

By completing this checklist it will help you identify the caring roles you carry out and how it might impact on your life. The checklist should allow you decide if you wish to contact the Aberdeenshire Carer Support Service to find out about an ACSP or to request one. You can then discuss this with a Family Wellbeing Worker from Quarriers who will support you to complete the ACSP. Please contact Aberdeenshire Carer Support Service – Quarriers, who are listed on the next page.

If you are looking for further information for unpaid carers there is lots of support and advice available.

Aberdeenshire Carer Support Service provided by Quarriers offers advice, information and support on all aspects of caring for carers across Aberdeenshire.
